

DIAGNOSTIC MICROBIOLOGY AND INFECTIOUS DISEASE

Volume 12 (1989) Contents

NUMBER 1, JANUARY/FEBRUARY

Mycology

- Susceptibility of Nosocomial Isolates of *Candida* Species to LY121019 and Other Antifungal Agents 1
M.A. Pfaller, S. Wey, T. Gerarden, A. Houston, and R.P. Wenzel

Virology

- Screening with a Shell Vial Assay for Antiviral Activity Against Cytomegalovirus 5
A. Telenti and T.F. Smith

Antimicrobial Susceptibility Studies

- In Vitro Activity of Ampicillin/Sulbactam Against Enterococci Determined by the Time-kill Method 9
Richard F. D'Amato, Anna Mathew, Lisa Hochstein, Dennis J. Cleri, and Janet Johnson
- DNA Hybridization Studies of a Nucleotide Sequence Homologous to Transposon TN1545 in the "Minnesota" Strain of Multiresistant *Streptococcus pneumoniae* Isolated in 1977 13
Robert C. Cooksey, Jana M. Swenson, Nancye C. Clark, and Clyde Thornsberry

Case Report

- Successful Treatment of Progressive Disseminated Histoplasmosis with Amphotericin B Methyl Ester 17
Robert E. Neihart, Daniel R. Hinthorn, Paul D. Hoepflich, and Chien Liu

Book Review 21

SYMPOSIUM: NEW FINDINGS ON THE ANTIBACTERIAL INTERACTION BETWEEN CEFOTAXIME AND DESACETYLCEFOTAXIME

- Introduction 23
Ronald N. Jones and Harold C. Neu

A Review of Cephalosporin Metabolism: A Lesson To Be Learned for Future Chemotherapy <i>Ronald N. Jones</i>	25
Comparative In Vitro Activity of Cefoxitin, Cefotaxime Alone, and in Combination with Desacetylcefotaxime Against the <i>Bacteroides</i> Species <i>Hanna N. Canawati</i>	33
Effectiveness of Cefotaxime Alone and in Combination with Desacetylcefotaxime Against <i>Bacteroides fragilis</i> <i>Benedict L. Wasilauskas</i>	39
Comparison of the In Vitro Action and Interaction of Cefotaxime and Desacetylcefotaxime Against Clinical Isolates of <i>Bacteroides</i> spp. <i>Kenneth E. Aldridge</i>	45
Activity of Cefotaxime/Desacetylcefotaxime with Two Aminoglycosides Against Gram-Negative Pathogens: An Example of Interactive Synergy <i>Stephen G. Jenkins</i>	51
Evaluation of Cefotaxime Alone and in Combination with Desacetylcefotaxime Against Strains of <i>Staphylococcus aureus</i> That Produce Variants of Staphylococcal β -Lactamase <i>Charles W. Stratton, Douglas S. Kernodle, Susan C. Eades, and Lyndell S. Weeks</i>	57
Antibacterial Activity of Cefotaxime, Desacetylcefotaxime, and the Combination of the Two <i>Henrik Friis</i>	67
Synergistic Interaction of Cefotaxime and its Metabolite Desacetylcefotaxime Demonstrated by Drug-Impregnated Disks <i>Dennis L. Stevens, Roberta Bergstrom, and Amy Gibbons</i>	73
Evaluation of Disk Susceptibility Testing of Cefotaxime/Desacetylcefotaxime <i>Peter C. Fuchs, Ronald N. Jones, and Arthur L. Barry</i>	81
Pharmacokinetics of Cefotaxime and Desacetylcefotaxime in the Newborn <i>Y. Aujard, F. Brion, F. Jacqz-Aigrain, M.C. Kasse, P. Chretien, C. Criqui, and H. Mathieu</i>	87
Cefotaxime and Desacetylcefotaxime in Neonates and Children: A Review of Microbiologic, Pharmacokinetic, and Clinical Experience <i>Richard F. Jacobs and Gregory L. Kearns</i>	93
Optimal Cefotaxime Dosing for Gram-Negative Bacteremia Effective Trough Serum Bactericidal Titer and Drug Concentrations 8 and 12 Hr. After 1- or 2-G Infusions <i>Hewitt C. Goodpasture, E. Hugh Gerlach, Ronald N. Jones, and Jerry D. Peterie</i>	101
Comparative Study of Three Different Dosing Regimens for Cefotaxime for Treatment of Gram-Negative Bacteremia <i>Gordon M. Trenholme, Barbara A. Schmitt, Jeffrey A. Nelson, Loretta C. Gvazdinskas, Barbara B. Harrison, and George W. Parkhurst</i>	107
Antibiotics for Penetrating Abdominal Trauma: A Prospective Comparative Trial of Single Agent Cephalosporin Therapy Versus Combination Therapy <i>Brack A. Bivins, Larry Crots, Farouck N. Obeid, Victor J. Sorensen, H. Mathilda Horst, and John J. Fath</i>	113
Cephalosporins—Cefotaxime/Desacetylcefotaxime Revisited: A Summary <i>Harold C. Neu</i>	119

Bacteriology

- Absence of Factors Associated with Significant Urinary Tract Infections Caused by Coagulase-Negative Staphylococci 123

David Rimland and William Alexander

- Identification of *Neisseria gonorrhoeae* with the ORTHOProbe DNA Probe Test 129

Alex P. Kuritza, Stephen C. Edberg, Cynthia Chapis, and Patricia Gallo

Virology

- Improved Sensitivity of a Modified Polymerase Chain Reaction Amplified DNA Probe in Comparison with Serial Tissue Culture Passage for Detection of *Chlamydia trachomatis* in Conjunctival Specimens from Nepal 133

Deborah Dean, Chet Raj Pant, and Peter O'Hanley

- Evaluation of Assay Systems for the Detection of Rotavirus in Stool Specimens 139

John J. Mathewson, Donald K. Winsor, Jr., Herbert L. Dupont, and Sandra L. Secor

Antimicrobial Susceptibility Studies

- In Vitro Activity of RO 23-9424, Ceftazidime, and Eight Other Newer Beta-Lactams Against 100 Gram-Positive Blood Culture Isolates 143

Ronald N. Jones and Arthur L. Barry

- Effect of Blood Product Medium Supplements on the Activity of Cefotaxime and Other Cephalosporins Against *Enterococcus faecalis* 149

G.M. Eliopoulos, E. Reiszner, S. Willey, W.J. Novick, Jr., and R.C. Moellering, Jr.

- Comparative In Vitro Susceptibilities of 504 Bacteremic Isolates to Ticarcillin Plus Clavulanic Acid and Other Antimicrobial Agents 157

Coleman Rotstein, Daniel Amsterdam, Thomas Beam, Jr., and Eugene Gorzynski

- Comparison of the Bactericidal Activity of Cefotaxime and Desacetylcefotaxime Alone and in Combination Against *Bacteroides fragilis* Group Organisms 165

Kenneth E. Aldridge, Lyndell S. Weeks, Charles W. Stratton, and Charles V. Sanders

- Effects of *Escherichia coli* Spheroplast Formation on Assays of H₂ and Adenosine Triphosphate Based Ampicillin Susceptibility Tests 171

E.G. Hörnsten, L.E. Nilsson, H. Elwing, and I. Lundström

- Clinically Significant Differences in Antibigrams of Morphologic Variants of Blood Culture Isolates 177

Lois B. Travis and James D. MacLowry

Antimicrobial Clinical Studies

- Pharmacokinetics and Safety of Lomefloxacin Following Multiple Doses 181

Thomas L. Hunt and Margaret A. Adams

Case Reports

- Septic Arthritis of the Knee Due to *Streptococcus anginosus* 189

Larry T. Balentine, Christopher J. Papasian, and Cynthia Burdick

- Mycoplasma hominis* Septic Thrombophlebitis in a Patient with Multiple Trauma:
A Case Report and Literature Review 193
Octavio V. Martinez, Joseph Chan, Timothy Cleary, and Gail H. Cassell

Book Review 197

NUMBER 3, MAY/JUNE

Bacteriology

- Neutrophil Killing of Single Microorganisms as Measured by a New Method 199
K.O. Dugger and J.N. Galgiani
- A Comparison of the Rapid Thermonuclease Test and the Lysostaphin
Susceptibility Test in the Presumptive Identification of *Staphylococcus aureus*
from Positive Bactec Blood Cultures 205
K.R. Forward, E.G. Ongsansoy, and T.K. Mathew
- Comparison of AMS-Vitek, MicroScan, and Autobac Series II
for the Identification of Gram-Negative Bacilli 211
Allan L. Truant, Elaine Starr, Christina A. Nevel, Maria Tsolakis,
and Ellen F. Fiss

Mycobacteriology

- Mycobacteremia Caused by Simultaneous Infection with *Mycobacterium avium*
and *Mycobacterium intracellulare* Detected by Analysis of a BACTEC 13A
Bottle with the Gen-Probe Kit 217
Patricia S. Conville, John F. Keiser, and Frank G. Witebsky
- Lomefloxacin, a New Fluoroquinolone: Studies on In Vitro Antimicrobial
Spectrum, Potency, and Development of Resistance 221
Kenneth E. Aldridge, Amy Henderberg, Kathleen Gebbia, Denise D. Schiro,
Aileen Janney, and Charles V. Sanders

Antimicrobial Susceptibility Studies

- A Sensitive Bioassay for Teicoplanin in Serum in the Presence or Absence
of Other Antibiotics 235
R.C. Erickson, A.R. Hildebrand, P.F. Hoffman, and C.B. Gibson
- Comparative In Vitro Activity of a New Fluorinated 4-Quinolone, QA-241 243
Wei-Wei Niu and Harold C. Neu
- In Vitro Activity of Minocycline and Rifampin Against Staphylococci 253
John Segreti, Loretta C. Gvazdinskas, and Gordon M. Trenholme

Antimicrobial Clinical Studies

- The Use of Cefepime (BMY 28142) to Treat Respiratory Infections 257
Neville Clynes, Brian E. Scully, and Harold C. Neu

Case Reports

- Vertebral Osteomyelitis and Native Valve Endocarditis Caused by
Staphylococcus warneri 261
Craig A. Wood, David L. Sewell, and Larry J. Strausbaugh

<i>Corynebacterium Jeikeium</i> (Group JK Diptheroids) Endocarditis: A Report of Five Cases	265
<i>B. Vanbosterhaut, I. Surmont, J. Vandeven, G. Wauters, and J. Vandepitte</i>	

Notes

Evaluation of a New Herpes Simplex Virus Typing Reagent for Tissue Culture Confirmation	269
<i>Sandra L. Aarnaes, Ellena M. Peterson, and Luis M. de la Maza</i>	
Stability of SM-7338, a New Carbapenem in Mediums Recommended for the Susceptibility Testing of Anaerobic Bacteria and Gonococci	271
<i>Ronald N. Jones and Richard V. Gardiner</i>	
Correlation of Urine pH with the Detection of Cytomegalovirus by the Shell Vial Technique	275
<i>Larry D. Gray, Duane M. Ilstrup, and Thomas F. Smith</i>	
In Vitro Evaluation of Ramoplanin (A16686 or MDL62198): A New Depsipeptide Complex for Potential Topical Use	279
<i>Ronald N. Jones and Arthur L. Barry</i>	
Resistance of <i>Xanthomonas maltophilia</i> to Antibiotics and the Effect of Beta-lactamase Inhibitors	283
<i>Harold C. Neu, Gita Saha, and Nai-Xun Chin</i>	

Letter to the Editor	287
-----------------------------	-----

Book Review	289
--------------------	-----

NUMBER 4, JULY/AUGUST

Bacteriology

High Incidence of False Positives by a Latex Agglutination Test for the Diagnosis of <i>Clostridium difficile</i> Associated Colitis in Compromised Patients	291
<i>S.M. Hussain Qadri, Javed Akhter, S. Ostrawski, S.G.M. Qadri, and Burke A. Cunha</i>	

The Application of Molecular and Immunologic Techniques to Study the Epidemiology of <i>Legionella pneumophila</i> Serogroup 1	295
<i>Michael Pfaller, Richard Hollis, William Johnson, R. Michael Massanari, Charles Helms, Richard Wenzel, Nancy Hall, Nelson Moyer, and Jean Joly</i>	

Mycobacteriology

Evaluation of Four Mycobacterial Blood Culture Media: BACTEC 13A, Isolator/BACTEC 12B, Isolator/Middlebrook Agar, and a Biphasic Medium	303
<i>Michael B. Agy, Carolyn K. Wallis, James J. Plorde, Larry C. Carlson, and Marie B. Coyle</i>	
Comparison of Three Techniques for Concentrating Positive BACTEC 13A Bottles for Mycobacterial DNA Probe Analysis	309
<i>Patricia S. Conville, John F. Keiser, and Frank G. Witebsky</i>	

Virology

- Evaluation of a HSV Specific Monoclonal Antibody Reagent for Laboratory Diagnosis of Herpes Simplex Virus Infection 315

Curt A. Gleaves, Daniel H. Rice, Rani Bindra, Debby A. Hursh, Susan E. Curtis, Carrie F. Lee, and Sharon F. Wendt

- Evaluation of Three Enzyme Immunoassays for HIV-1 Antigen Detection 319

Patricia B. Willoughby, Arturo Lisker, and James D. Folds

- Detection of Multiple Viral Agents in Nasopharyngeal Specimens Yielding Respiratory Syncytial Virus (RSV): An Assessment of Diagnostic Strategy and Clinical Significance 327

E. Kanta Subbarao, Judy Griffis, and Joseph L. Waner

- Herpesvirus simiae* Contamination of Primary Rhesus Monkey Kidney Cell Cultures: CDC Recommendations to Minimize Risks to Laboratory Personnel 333

D.L. Wells, S.L. Lipper, J.K. Hilliard, J.A. Stewart, G.P. Holmes, K.L. Herrmann, M.P. Kiley, and L.B. Schonberger

Antimicrobial Susceptibility Studies

- In Vitro Comparison of Cefpirome and Four Other Beta-Lactam Antibiotics Alone and in Combination with Tobramycin Against Clinical Isolates of *Pseudomonas aeruginosa* 337

I. Cabezudo, M. Pfaller, M. Bale, and R. Wenzel

- Synergy of New C-3 Substituted Cephalosporins and Tobramycin Against *Pseudomonas aeruginosa* and *Pseudomonas cepacia* 343

Nai-Xun Chin and Harold C. Neu

Case Reports

- Agrobacterium radiobacter* and CDC Group Ve-2 Bacteremia 351

Dean A. Blumberg and James D. Cherry

- Varicella Associated Intracerebral Hemorrhage in the Absence of Thrombocytopenia 357

Erol Fikrig and Neil L. Barg

Notes

- Rapid Culture Confirmation of Adenovirus Isolates Using the Adenoclone Enzyme Immunoassay (EIA) Test Kit 361

Steven M. Lipson

- Should Novobiocin Be Clinically Re-evaluated? 363

Ronald N. Jones

NUMBER 5, SEPTEMBER/OCTOBER

New Antimicrobial Reviews

- Cefmetazole (CS-1170), a "New" Cephamycin with a Decade of Clinical Experience 367

Ronald N. Jones

Bacteriology

- Detection of Staphylococcal Resistance to Penicillinase-Resistant Penicillins: A Comparison of Two Widely Used Disk Diffusion Methods 381

Ronald N. Jones and Arthur L. Barry

- The Prevalence of Staphylococcal Resistance to Penicillinase-Resistant Penicillins: A Retrospective and Prospective National Surveillance Trial of Isolates From 40 Medical Centers 385

Ronald N. Jones, Arthur L. Barry, Richard V. Gardiner, and Richard R. Packer

- Comparative Evaluation of the MRS Test: A 4 to 6 Hour Screening Test for Detecting Oxacillin-Resistant Staphylococci 395

Sybil Wellstood

Mycobacteriology

- Inter-Bottle Transfer of Mycobacteria by the BACTEC 460 401

Patricia S. Conville and Frank G. Witebsky

Virology

- Evaluation of Immunofluorescent Reagents, Centrifugation, and Conventional Cultures for the Diagnosis of Adenovirus Infection 407

Azmi M. Mahafzah and Marie L. Landry

Antimicrobial Susceptibility Studies

- Statistical Criteria for Selecting Quality Control Limits for Broth Microdilution Susceptibility Tests with 39 Different Antimicrobial Agents 413

Arthur L. Barry, Peter C. Fuchs, Ronald N. Jones, and The Collaborative Antimicrobial Susceptibility Testing Group

- In Vitro Comparison of Cefoperazone/Sulbactam with Selected Antimicrobials Against 300 Bacteroides Isolates: Inhibitory Activity and Time-Kill Kinetic Studies 421

Michael S. Gelfand, Jane T. Grogan, and Michael J. Haas

Case Report

- Invasive Hyalohyphomycosis Caused by *Scopulariopsis brevicaulis* in a Patient Undergoing Allogeneic Bone Marrow Transplant 429

Peter Phillips, William S. Wood, Gordon Phillips, and Michael G. Rinaldi

Notes

- Comparative Susceptibility of *Mycoplasma pneumoniae* to Erythromycin, Ciprofloxacin, and Lomefloxacin 433

G.H. Cassell, K.B. Waites, M.S. Pate, K.C. Canupp, and L.B. Duffy

- The Comparative Activity of Lomefloxacin (SC-47111, NY-198) and Other Orally Absorbable Agents Against *Haemophilus influenzae* and *Branhamella catarrhalis* 437

K.R. Forward, P.A. Degagne, and K.R. Bartlett

- Antibacterial Activity and Beta-Lactamase Stability of MDL 19,592, an Oral Cephalosporin 441

Kwok-Woon Yu and Harold C. Neu

- PBP Profiles of *Haemophilus influenzae*, *H. aegyptius*, and the *H. influenzae* Biogroup Aegyptius Associated with Brazilian Purpuric Fever 445
Paul M. Mendelman and Donald O. Chaffin

- Bioassay of Teicoplanin in Serum Containing Rifampin or a Beta-Lactam Antibiotic 449
M.T. Kenny, J.K. Dulworth, M.A. Brackman, H.L. Torney, C.B. Gibson, A.R. Hildebrand, L.S. Weckbach, and J.L. Staneck

Book Review 455

NUMBER 6, NOVEMBER/DECEMBER

Bacteriology

- Comparison of Two Commercial Broth-Culture Systems for Microbial Detection in Dialysates of Patients on Continuous Ambulatory Peritoneal Dialysis 457
Michael A. Saubolle, David L. Sewell, Marline D. Holland, and Thomas A. Golper
- Increased Efficiency of Stool Culture for the Detection of *Salmonella* and *Shigella* 463
Daniel P. Fedorko, Susan M. Lehman, Pauline K.W. Yu, Jeffrey J. Germer, and John P. Anhalt

Mycology

- Susceptibility of Clinical Isolates of *Candida* spp. to Terconazole and Other Azole Antifungal Agents 467
M.A. Pfaller and T. Gerarden

Virology

- Replacement of Special Enzyme Immunoassay Transport Medium by a Standard Viral Transport Medium in the Herpcheck Herpes Simplex Virus and Antigen Detection Test 473
André Dascal, Jacques Chan-Thim, Marie Morahan, Joseph Portnoy, and Jack Mendelson

Antimicrobial Susceptibility Studies

- Tazobactam Prevention of Emergence of Resistance 477
Harold C. Neu, Wei-Wei Niu, and Nai-Xun Chin
- Comparative In Vitro Activity of Piperacillin Combined with the Beta-Lactamase Inhibitor Tazobactam (YTR 830) 481
G.M. Eliopoulos, K. Klimm, M.J. Ferraro, G.A. Jacoby, and R.C. Moellering, Jr.
- Piperacillin/Tazobactam (YTR 830) Combination: Comparative Antimicrobial Activity Against 5889 Recent Aerobic Isolates and 60 *Bacteroides fragilis* Group Strains 489
Ronald N. Jones, Michael A. Pfaller, Peter C. Fuchs, Kenneth Aldridge, Stephen D. Allen, and E. Hugh Gerlach
- Studies to Optimize the In Vitro Testing of Piperacillin Combined with Tazobactam (YTR 830) 495
Ronald N. Jones and Arthur L. Barry

Activity of Ticarcillin/Clavulanate and Piperacillin/Tazobactam (YTR 830; CL-298,741) Against Clinical Isolates and Against Mutants Derepressed for Class I Beta-Lactamase	511
<i>Cynthia C. Knapp, Juan Sierra-Madero, and John A. Washington</i>	

Case Report

<i>Nocardia</i> Infection in the Acquired Immunodeficiency Syndrome	517
<i>Edward E. Telzak, John Hii, Bruce Polsky, Timothy E. Kiehn, and Donald Armstrong</i>	

Notes

Rapid Identification of <i>Candida albicans</i> Using 4-Methylumbelliferyl N-acetyl- β -galactosaminide	521
<i>Maurice T. Dalton, David J.M. Haldane, and June MacDonald</i>	

Book Review	525

Volume Contents

NUMBER 3 SUPPLEMENT, MAY/JUNE

Lomefloxacin (SC 47111 or NY-198), a New Difluorinated Quinolone: Comparison of the In Vitro Activity with Other Broad Spectrum Antimicrobials Against <i>Enterobacteriaceae</i> , <i>Acinetobacter</i> spp, <i>Aeromonas</i> spp, and <i>Pseudomonas aeruginosa</i>	1S
<i>Kenneth E. Aldridge, Amy Henderberg, and Charles V. Sanders</i>	
Comparative In Vitro Activity of Lomefloxacin (SC 47111 or NY-198) Against Fresh Clinical Bacterial Isolates	7S
<i>D.N. Wright, B. Saxon, and J.M. Matsen</i>	
In Vitro Activity of Lomefloxacin Against Multiply Resistant <i>Pseudomonas</i> <i>aeruginosa</i> , <i>Enterobacter cloacae</i> , and <i>Staphylococcus epidermidis</i>	13S
<i>Cathy A. DiVincenzo, Kari L. Shatzer, and Frank R. Venezia</i>	
In Vitro Activity of Lomefloxacin as Compared with Ciprofloxacin	17S
<i>Clark B. Inderlied, Mariselle G. Lancero, Luis M. Bermudez, and Lowell S. Young</i>	
In Vitro Activity of Lomefloxacin (SC 47111 or NY-198), a New Quinolone Antimicrobial, Against Clinical Isolates of Common Pathogens	21S
<i>S.A. Sonstein and J. Dahlgren</i>	
Bactericidal Activity of Lomefloxacin SC 47111 (NY-198) and Ciprofloxacin Against Selected Pathogens	29S
<i>Charles W. Stratton and Lyndell S. Weeks</i>	
Lomefloxacin Activity Against 2,813 Clinical Isolates: A Collaborative Study at Three Medical Centers in Brazil	35S
<i>Marcelo Magalhaes, Luiz R. Trabulsi, and Augusto C. Montelli</i>
